Dear Ms. Cummins, Mr. Korleski, and Col. Calkins:

The Grand Portage Band of Lake Superior Chippewa requests multi-agency coordination with Grand Portage for any permitting actions for new or existing major industrial projects within the 1854 Ceded Territory. The Band appreciates the opportunities to meet with staff from each of your agencies to discuss, among other issues, the status of permits that may be issued or re-issued for major industrial facilities that operate within the 1854 Ceded Territory. Several Bands retain hunting, fishing, and other usufructuary rights that extend throughout the entire northeast portion of the state of Minnesota under the 1854 Treaty of LaPointe¹ (the "Ceded Territory"). In the Ceded Territory, all the Bands have a legal interest in protecting natural resources and all federal agencies share in the

federal government's trust responsibility to the Bands to maintain those treaty resources.²

To ensure that treaty-reserved natural resources are managed and protected to the extent possible under federal laws, we request that leadership from your agencies coordinate meetings to consult with the Bands for any new or expanding major industrial project within the 1854 Ceded Territory. Although we appreciate the opportunity to meet with each agency individually and recognize the logistical challenges of multi-agency consultation, meeting together will be more cost effective and allow for more interagency collaboration.

Sincerely,
